FAQ

1. How do I know which measurement is most important?

For tops, the chest is the most important measurement, while for pants or skirts, waist and hips are critical. For dresses or jumpsuits, all three measurements are usually necessary.

2. What if my measurements fall between two sizes?

If you are between two sizes, consider the garment's intended fit and fabric. Our Polo fabric is a bit stretchy, so the smaller size might work, or if you prefer a looser fit, go for the larger size. We recommend a bit loose fit for kids.

3. Why does Briz Leavers size different than my current size?

Different brands have slightly different sizing standards. What might be a "medium" in one brand could be a "large" in another. Please use our size chart for accurate sizing.
